PROFESSIONAL SUMMARY

Full time study Software Development major and AI minor with strong foundation in programming languages such as Java, HTML, PHP and CSS at Auckland University of Technology. My first work experience took place in a restaurant where I had chance to enhance my communication skills, teamwork and customer service. Now, transitioning my passion for technology, I am excited to bring a unique blend of technical curiosity and strong work ethic to the field. I am dedicated to expanding my expertise through internships and hand on experiences in Software Development industry.
